

Equiom and SureCloud

Equiom is a well-established international professional services provider supporting corporations around the world with their fiduciary and related support service needs. SureCloud is a leading Cybersecurity Solutions and Governance, Risk and Compliance (GRC) provider.

Having benefitted from SureCloud's cybersecurity services for a number of years, Equiom has engaged SureCloud in a referral agreement for SureCloud to help businesses like yours manage the risks from a cybersecurity standpoint.

Cybersecurity services and applications

Having the right cybersecurity strategy is critical to the success of many businesses. Not only can it help you protect the things you prize but it also gives your clients confidence and certainty.

The services offered through SureCloud encompass a range of preventative measures in cybersecurity for businesses across the globe. Through SureCloud's innovative platform, clients are able to streamline processes leading to more efficient overall management of their security obligations.

Working together

Equiom and SureCloud can offer clients the perfect mix of technical expertise, service excellence and global reach. Our services are bespoke and can be provided in a number of jurisdictions, depending on specific client needs. The services set out below will be offered by SureCloud and Equiom will receive a commission for referred business.
